---

Frontend Engineer, I'm a ReactJS addict, passionate about new technologies and eager to learn good practices.

PROFESSIONAL EXPERIENCE

Algoan Inc. — Paris, France
Frontend Engineer
MARCH 2021 - NOW

Credit decisioning as a service, Algoan helps lenders make the best risk decisions throughout the credit lifecycle by unleashing the power of Open Banking data.
I was in charge of working on a financial dashboard :
- Optimize the technical architecture of the dashboard.
- Developing new tools, with a focus on technical excellence and good design.
- Participating to scrum ceremonies from backlog refinements to sprint plannings.

React, Typescript, NextJS, styled-components, redux & toolkit.

Frontend Engineer, freelance — Beauvais, France
NOVEMBER 2019 - MARCH 2021

I build websites for clients that want custom designs and best-practices SEO.:

- psychomotor therapist's Website,
https://psychomot-ldds.fr/
A website for a psychomotor therapist with a simple interface for her patient to make an appointment.
React, Typescript, Styled-Components, AWS S3 (CDN CloudFront).

- Association Psychomotricité & Psychotraumatisme's Website,
https://associationpp.fr/
Landing page for a french non-profit association.
React, Gatsby, Typescript, Styled-Components, AWS S3 (CDN CloudFront).

BookBird Inc. — Toronto, Canada
Frontend Engineer
JULY 2019 - NOVEMBER 2019

BookBird allows students to make money selling their unwanted textbooks, and save money buying the textbooks they need.
I was in charge of :
- Refactor the code and move class components to functional components while following best practices (Jest - Flow).
- debug the ios and android apps.
- Developing new tools.

PERSONAL PROJECT

EMALL
https://emall-live.herokuapp.com/
https://github.com/mbeuil/Emall-eshop-react-app
A web app built as a portfolio project.
React/create-react-app, Typescript, React-Router, Redux, Redux-Saga, Styled-Components, Firebase.
Prettier, ESLint, Airbnb Style Guide.

EDUCATION

42 — Paris
NOVEMBER 2017 - NOVEMBER 2019

42 is a private computer programming school that doesn't have any professors, and is open 24/7. The training is inspired by new modern ways to teach which include peer-to-peer pedagogy and project-based learning.
C, Git, Docker, PHP, HTML, CSS.
